

Wellness

Most of the dogs at our events have had poor care during their lives and we want to let adopters know information about nutrition, alternative health options, opportunities for dog care providers, unique products and services for family dogs etc. In particular this station should focus on the benefits of good quality dog foods, how to introduce new dog foods and overall good nutrition.

- Confirm Previous Stations have been initialed with orange marker.
- Before discussing topics with adopter ask them for their paperwork and hand off to STATION 8.
- Explain how to introduce new food to diet
- Expected fearfulness with nail cutting and bathing etc.
- Explain the importance of high quality foods for dogs.
- Give the adopter pre-packaged bags with dog food currently being used – dog's name should be on the bag.
- Sign Adopter Checklist
- Adopter goes to Station 8 (Records)
